

Corporate Banking Tariff

Effective from April 2024

This booklet contains information on charges for products and services for payments, information services and digital channels in our Corporate Banking Tariff.

You will find a summary of our everyday charges on page 3. Further details of these and other charges can be found in later pages. This document contains the basic terms and conditions applicable to most of our common services unless covered by specific arrangements. They are subject to change at any time.

Certain fees do not apply to small charities or micro-enterprises. A small charity is a charity whose annual income is less than £1 million. A micro-enterprise is a business with (i) fewer than 10 employees, and (ii) a turnover and/or balance sheet total not exceeding €2,000,000. A business may not be a micro-enterprise if it has a parent or subsidiary which exceeds these thresholds. Please contact your relationship team if you are not sure whether Barclays has classified your business as a micro-enterprise.

If you have any questions on your tariff, please contact your relationship team.
